EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Simon B. Anolick on June 02, 2006.

2. The application has been amended as follows:

IN THE SPECIFICATION

Page 2, lines 20-22, the paragraph "DESCRIPTION OF FIGURES

Figure 1 shows a protective coating of the invention being formed onto a component." has been deleted.

Page 7, line 30 to **page 8**, line 16, the text under the heading "Application of Protective Coatings" has been replaced with the following text:

-- As stated, the protective coatings of the invention include a thermoplastic film. The thermoplastic film may further include an adhesive layer, which is effective for causing silicone containing microcapsules to adhere to the thermoplastic film.

The protective coating may be contacted with or placed over and drawn over a component, such as for example with a vacuum. Heat may be applied with a heat source. The combination of vacuum and heat is effective for breaking silicone containing microcapsules. The heat is further effective for causing the liquid silicone in the microcapsules to cure and form a more solid layer. In an aspect of the invention where the silicone is UV curable, UV light may be applied.

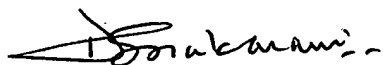

Surface Insulation Testing shows significant corrosion protection benefits of the silicone coatings over unprotected test units. --.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. S. Nakarani whose telephone number is (571) 272-1512. The examiner can normally be reached on Tuesday-Friday.
